A circular cartoon illustration of a smiling face with large eyes and a wide smile, surrounded by a ring of small, stylized figures. The face is in the center, with large, round eyes and a wide, open-mouthed smile. It has a few small dots for freckles or pores. Surrounding the face is a thick black circular border. Inside this border, there are several small, stylized figures that look like simplified people or characters, each with a different pose or expression. The entire illustration is in black and white, with a simple, clean line-art style.
