India's colorful Holi festival

By Radhika Chalasani March 2, 2018, 3:13 PM

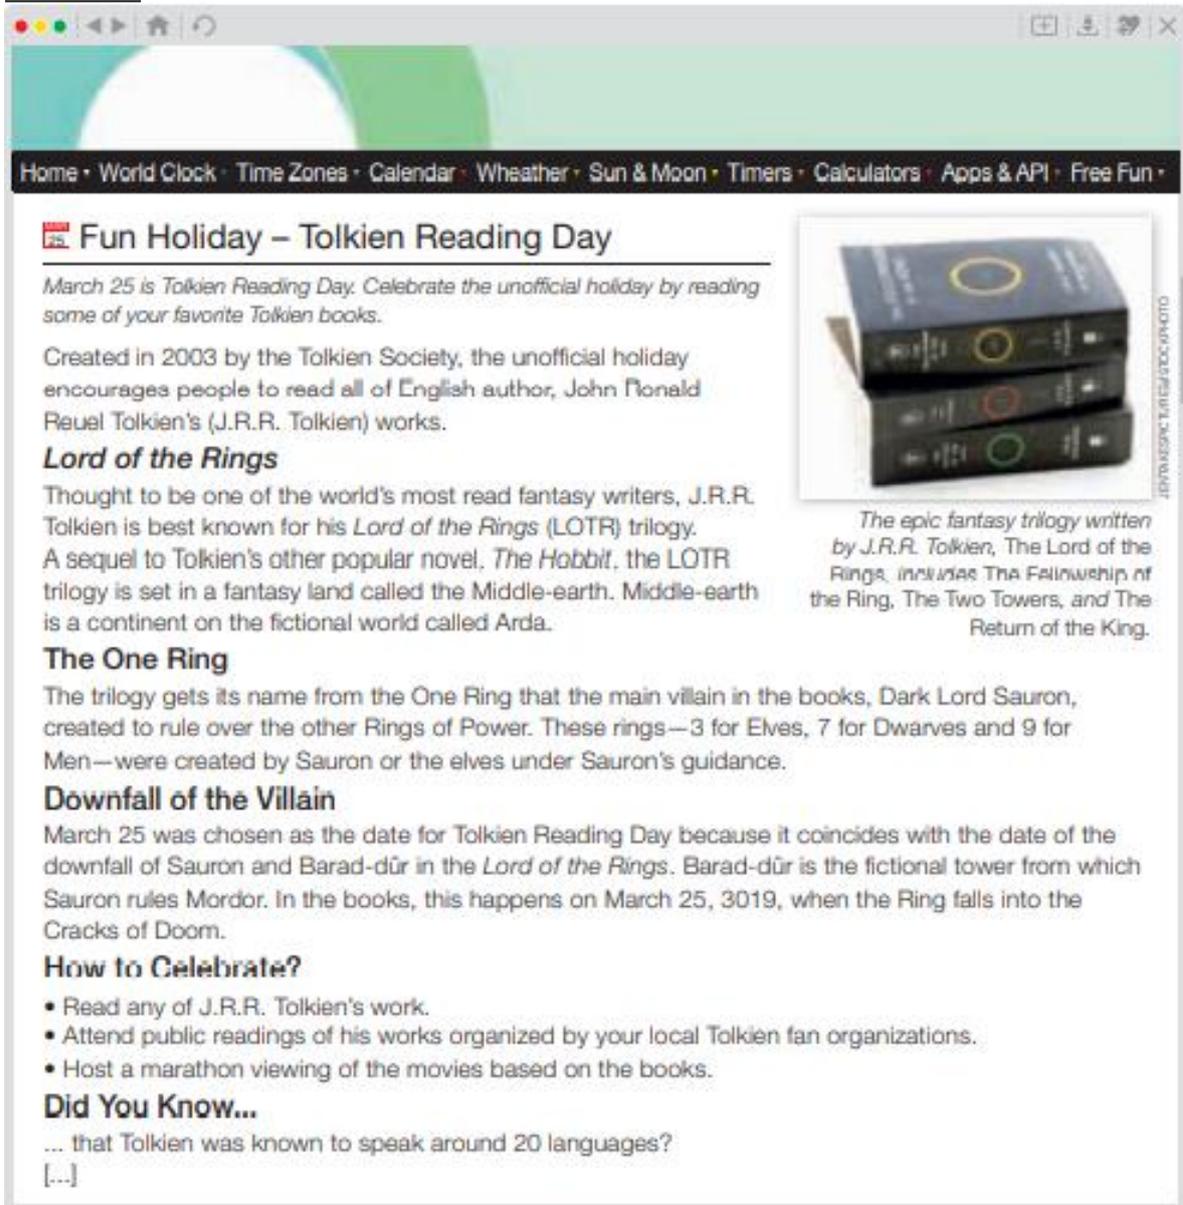

Students with their faces smeared in colored powder dance as they celebrate the Hindu festival of Holi, heralding spring, at a university campus in Chandigarh, India, on March 1, 2018.

Riotous, vibrant color envelopes India when Hindus celebrate the end of winter and the arrival of spring with the annual festival of Holi. Also known as the festival of colors, it is a time to let go of certain social norms by wearing all-white clothes to dance and douse friends, family and strangers in colored powders or water of deep hues of magenta, blue, green, yellow or orange. Holi has its roots in stories from Indian mythology. Though the official date this year is March 2, different parts of the country celebrate the day before then or over several days.

Fun Holiday – Tolkien Reading Day

March 25 is Tolkien Reading Day. Celebrate the unofficial holiday by reading some of your favorite Tolkien books.

Created in 2003 by the Tolkien Society, the unofficial holiday encourages people to read all of English author, John Ronald Reuel Tolkien's (J.R.R. Tolkien) works.

Lord of the Rings

Thought to be one of the world's most read fantasy writers, J.R.R. Tolkien is best known for his *Lord of the Rings* (LOTR) trilogy. A sequel to Tolkien's other popular novel, *The Hobbit*, the LOTR trilogy is set in a fantasy land called the Middle-earth. Middle-earth is a continent on the fictional world called Arda.

The epic fantasy trilogy written by J.R.R. Tolkien, *The Lord of the Rings*, includes *The Fellowship of the Ring*, *The Two Towers*, and *The Return of the King*.

The One Ring

The trilogy gets its name from the One Ring that the main villain in the books, Dark Lord Sauron, created to rule over the other Rings of Power. These rings—3 for Elves, 7 for Dwarves and 9 for Men—were created by Sauron or the elves under Sauron's guidance.

Downfall of the Villain

March 25 was chosen as the date for Tolkien Reading Day because it coincides with the date of the downfall of Sauron and Barad-dûr in the *Lord of the Rings*. Barad-dûr is the fictional tower from which Sauron rules Mordor. In the books, this happens on March 25, 3019, when the Ring falls into the Cracks of Doom.

How to Celebrate?

- Read any of J.R.R. Tolkien's work.
- Attend public readings of his works organized by your local Tolkien fan organizations.
- Host a marathon viewing of the movies based on the books.
