Early Childhood - A genius was born

Albert Einstein was born in Germany in 1879, to a Jewish family. His father was an engineer and a salesman. Einstein wasn't a very bright student. He even had problems with his speech. When he was five years old, Einstein saw a **magnetic compass** and marvelled at the needle that kept moving with an invisible force. At age 12, he found a book on geometry which he read over and over again. Available at <http://mocomi.com/albert-einstein-biography/>. Accessed on March 29, 2018.
