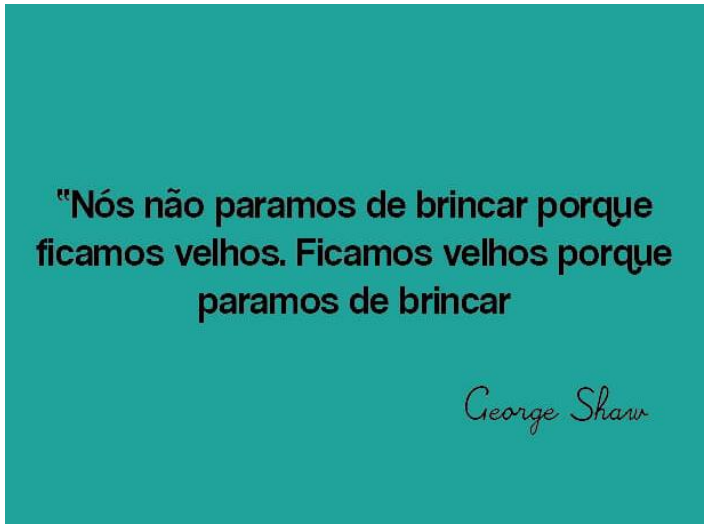
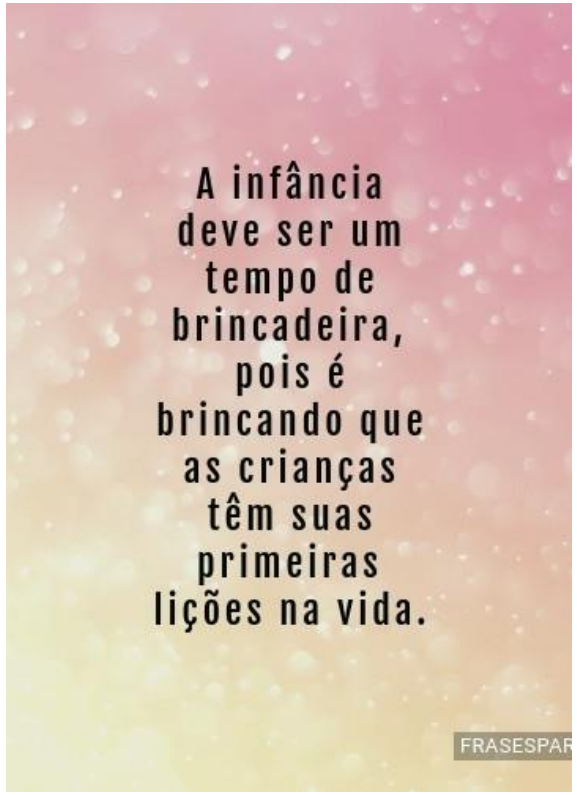
FEIRA DE CIÊNCIAS B2

SALAS AZUL, AMARELA E LARANJA



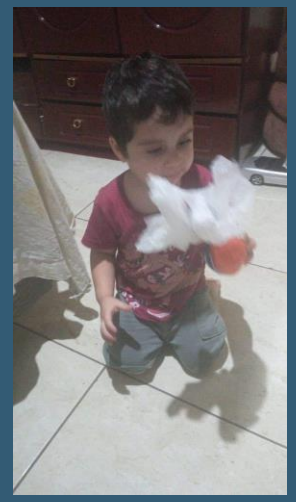


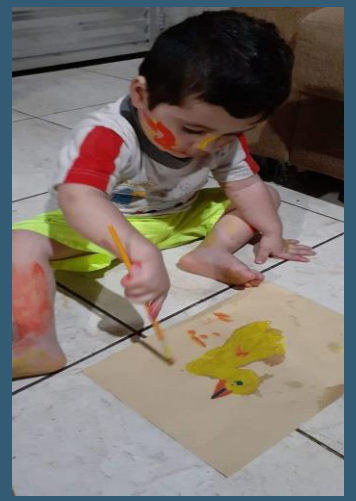
PORQUE A VIDA NÃO TEM GRAÇA SEM BRINCADEIRAS!

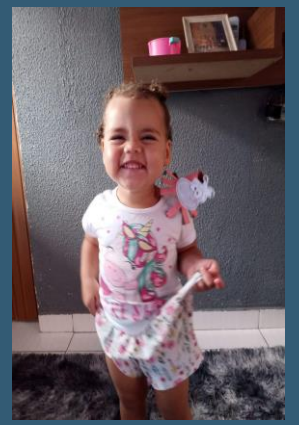
- É certo que todos nós temos boas lembranças da nossa infância em que fizemos brincadeiras muito divertidas, encontramos amigos ou aprendemos alguma coisa nova brincando com a nossa família.

- O lúdico é parte importante do desenvolvimento infantil, onde acontecem os testes, os experimentos e se constrói muito aprendizado que irá se modificar no decorrer da vida.

VAMOS RELEMBRAR AS NOSSAS ATIVIDADES !

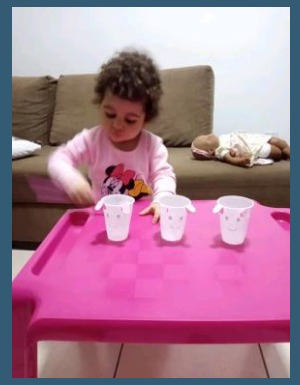


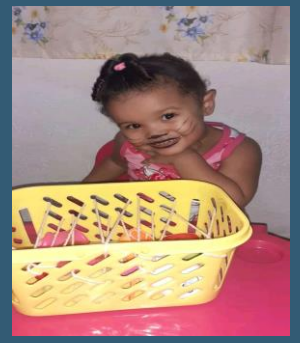


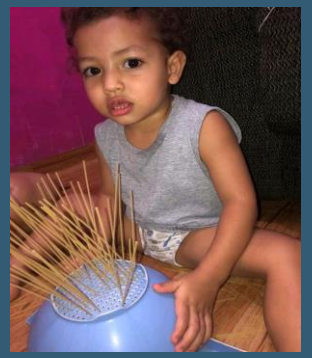


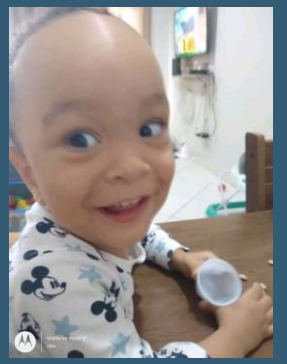
NOSSAS ATIVIDADES!

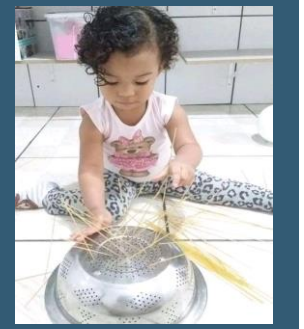
As atividades tem como principal objetivo fortalecer a interação familiar em tempos de pandemia.
Trabalhamos também coordenação motora fina, desenvolvimento espacial, equilíbrio, oralidade, imaginação e concentração.

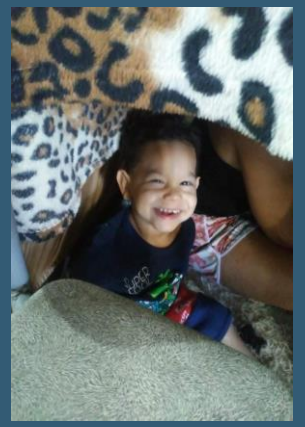


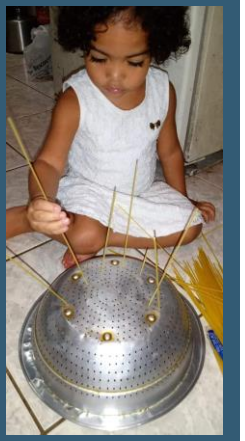


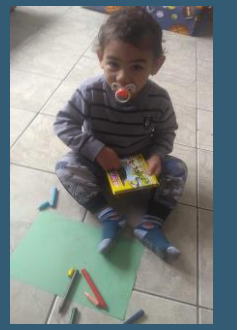


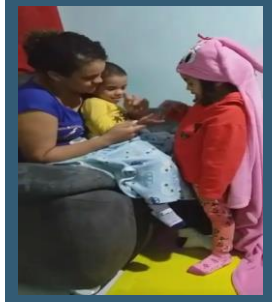


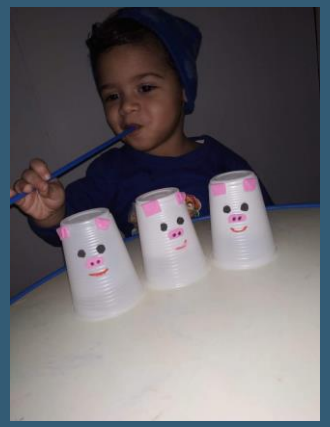


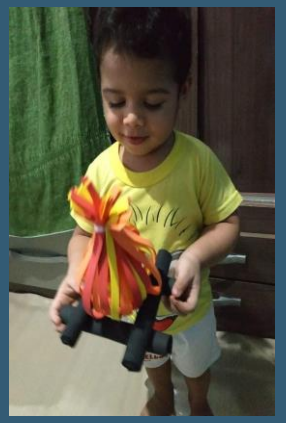


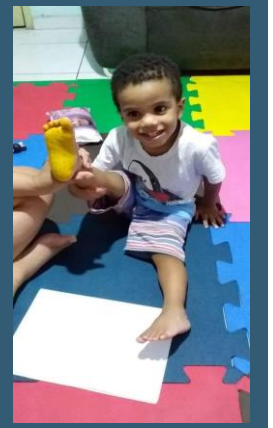












Você notou mudanças no seu filho neste período? Divida com a gente a evolução que ele teve!
