Período de 05/06/2020 a 18/06/2020

Caro aluno, responda todas as questões em seu caderno.

1) Leia o texto e responda as questões:

The screenshot shows a web browser window with the URL <https://en.islcollective.com/english-esl-worksheets/grammar/apostrophe-s/language-understanding-covid-19/125476>. The page content includes a text passage about COVID-19 and three exercises.

What is COVID-19?
Coronavirus disease (COVID-19) is an infectious disease caused by a newly discovered coronavirus. The outbreak was first identified in Wuhan, Hubei Province, China, in December 2019. The World Health Organization (WHO) declared the outbreak to be a pandemic on 11 March 2020 with cases of COVID-19 having been reported in over 200 countries and territories. Most people infected with the COVID-19 virus experience mild to moderate respiratory illness and recover without requiring special treatment. Older people, and those with underlying health conditions like cardiovascular disease, diabetes, chronic respiratory disease, and cancer are more likely to develop serious illness. The COVID-19 virus spreads primarily through droplets of saliva or discharge from the nose when an infected person coughs or sneezes. At this time, there are no specific vaccines or treatments for COVID-19. However, there are many ongoing clinical trials evaluating potential treatments. WHO will continue to provide updated information as soon as clinical findings become available.

Ex 1: Discuss the statements about the Coronavirus below & say if you think they are true

- COVID-19 affects the respiratory system.
- You can only get the virus if you touch, kiss or hug someone who has it.
- The virus started in Wuhan, China in December 2019.
- Children are immune to the Coronavirus.

Ex 2: Read the text below, adapted from an excerpt on the WHO website & check your

Ex 3: Find words in the text matching the definitions given & discuss the meaning of the

A. relating to the heart or blood vessels: _____
B. formally and publicly stated: _____

a) Which country did the virus come from?

Modal verb: MUST

Must é um verbo auxiliar que indica obrigação, quando temos certeza de algo. Ele sempre vem acompanhado de um verbo principal.

She must be sick - indica a certeza de que ela está doente.

He must be at home - indica a certeza de que ele está em casa.

Forma negativa: quando sabemos que algo não é verdadeiro. Usamos MUST + NOT ou MUSTN'T.

He must not have a car - indica a certeza de que ele não tem um carro.

They mustn't work. - indica a certeza de que eles não trabalham.

3) Escreva MUST ou MUSTN'T:

- a) This isn't the Smiths? I _____ have the wrong number.
- b) Carlos takes the bus everywhere. He _____ have a car.
- c) You have a cold and a fever? You _____ feel awful.
- d) I always have to repeat things when I talk to Kelly. She _____ hear very well.
- e) Silvia worked 10 hours today. She _____ be tired.

4) Passe as frases para a forma negativa:

- a) He must have a car.
- b) They must eat very much.
- c) We must leave for work very early.
- d) You must have many clothes.
- e) Her children must drink a lot of juice.

5) Escreve no quadro os termos nos lugares corretos em relação às ações de prevenção ao coronavírus que deverão ou não deverão ser feitas:

Use hand sanitizer - Wash your hands regularly
Shake hand with friends - Hug and kiss to great people
Touch your face - Stay at home - Clean your phone
Desinfect common surfaces - Travel - Wear disposable masks

MUST DO	MUSTN'T DO
